Take your digital learning journey to the next level with Being Essential - your trusted partner for scalable and impactful skill building. From start to finish, we provide expert guidance, oversight, and unmatched learning experiences.

Meet Compliance obligations with a Reliable, Proven Partner

With one of the largest selections of compliance topics, Skillsoft Compliance Solutions ensures organizations effectively meet regulatory requirements, mitigate risk, address global audience requirements with language and cultural considerations and promote awareness around critical risk areas - all while building a strong culture of compliance through a comprehensive suite of training, services and technology.

Our compliance courseware and videos are developed in partnership with industry-leading subject matter experts to ensure customers receive up-to-date, relevant and reliable content. Courses are available in 30+ languages, each developed around key instructional design principles to better engage learners and accelerate ethical and safety workplace practices across the organization.

The solution combines a continuously updated library of customizable legal and safety compliance content with purpose-built technology and value-added services for total compliance coverage. And it's all powered by Percipio Compliance, the immersive platform designed to make learning easier, more accessible, and more effective.

Leverage multiple styles of instruction, including videos, scenario-based learning, interviews, texts, and more. Add your own company-specific policy documents and non-instructional videos with self-service course configuration tool. Get automatic updates and product enhancements as soon as they're available.
